- There might be a limit on how much this policy will pay each year.
- This policy isn't a substitute for comprehensive health insurance.
- Since this policy isn't health insurance, it doesn't have to include most Federal consumer protections that apply to health insurance.

Benefit Payment Example

Susan wakes up in the middle of the night experiencing chest pain. An ambulance takes her to the emergency room (ER) at a local hospital. Upon arrival, the ER doctor examines Susan and advises that she requires immediate admission to the Intensive Care Unit for further evaluation and treatment. After one day in the Intensive Care Unit, Susan moves to a standard room and spends two additional days recovering in the hospital. Susan was released to her primary care physician for follow-up treatment and observation. Her primary doctor is now keeping a close watch over Susan's overall health. Depending on her health insurance, Susan's out-of-pocket costs could run into hundreds of dollars to cover expenses like insurance co-payments and deductibles. MetLife Group Hospital Indemnity Insurance payments can be used to help cover these unexpected costs or to pay for any other expense the way that Susan chooses.
